

PORTABLE FIRE PUMP

Characteristics:

- Lightweight and compact with high pump performance
- Reliable engine with oil injection / auto mixing oil delivery system
- Cooling water recirculation system
- Engine overheat protection sensor
- Electric starter with back up recoil starter
- Maintenance free battery

Pump Performance:

- 2,050 litres / min. at 0.6MPa
- 1,800 litres / min. at 0.8MPa
- 1,500 litres / min. at 1.0MPa

Engine:

- 745cc, 2 strokes, water-cooled gasoline engine (different models available)

Applications:

- Municipal fire brigades
- Industrial fire brigades
- Forestry departments

Options / Accessories:

- Battery Charger
- Tool Kit / box
- Floodlight projector
